OBJECTIVE

B.E. student in AI & Data Science with 2+ projects and a background in technical committee leadership. Dedicated to leveraging machine learning and data-driven insights to develop high-impact, scalable solutions. Eager to bring strong communication skills and a collaborative mindset to a forward-thinking engineering team.

EDUCATION

Bachelor of Engineering - Artificial Intelligence and Data Science Expected 2028

- Vidyavardhini's College of Engineering and Technology, Mumbai
- Current CGPA: 8.33/10
- Relevant Coursework: Full-Stack Development, Data Structures, Database Systems

Higher Secondary Certificate- Science Stream 2024

- Nirmala Memorial Foundation College of Science and Commerce
- HSC: 75.17%

SKILLS

Core Technologies:

JavaScript, React, Python, HTML5, CSS3, Node.js

Development & Deployment:

Git/ GitHub

Leadership & Collaboration:

Technical Team, Problem Resolution, Agile Development, Project Coordination

PROJECTS

RoadPulse - Road Quality Detector ~ Ongoing

A crowdsourced system that uses smartphone sensors to detect potholes and road anomalies in real time. Implemented a FastAPI backend to process sensor data and applied a confidence scoring mechanism to improve detection accuracy. Visualized results through an interactive heatmap, enabling efficient road monitoring and better decision-making.

Tech Stack: Next.js, Godot Game Engine, MongoDB, React

VCET EduPortal ~ March, 2026

Developed a full-stack college website for Vidyavardhini's College of Engineering using Next.js and MongoDB, featuring a modern, responsive UI, dynamic pages, and a functional contact system with backend integration. Focused on improving user experience by redesigning the interface with clean and structured design principles.

Tech Stack: React, HTML, CSS, JavaScript, Next.js, MongoDB

EXPERIENCE

VCET- NSDC (National Skill Development Corporation)

Technical Team Member

- Designed marketing materials, event brochures, and digital assets using the Canva Suite to streamline public relations and event outreach.
- Supported and guided student teams to achieve organizational objectives through peer mentoring and troubleshooting technical roadblocks.
- Ensured effective end-to-end management of all events and feedback processes to improve the quality of future technical initiatives.

CERTIFICATIONS

- Completion Certificate for hands-on project in “Build your Own Generative AI”
- Internship Completion “Microcontroller Programming and Applications” by Texas Instruments at VCET
- Course Completion “Data Structures and Algorithms using Java” by Infosys
- Course Completion “OOP using Python” by Infosys
- Participation Certificate for Workshop on Generative AI
- Participation Certificate in Oscillations’25 at VCET
- Participation Certificate in TechX - Product Showcase’25 at VCET
- Participation Certificate in VNPS’26 at VCET
- Participation Certificate in Oscillations’26 at VCET
- Participation Certificate in “Crack DSA” by ACEIT, Jaipur
- Participation Certificate in “National Financial Literacy Quiz 2026”
- Participation Certificate in “IP Awareness/Training Program” under NIPAM
